[District 8](#)

[Alton - East St. Louis and Vicinity](#)

**HIGHWAY PROGRAM SUMMARY  
ILLINOIS DEPARTMENT OF TRANSPORTATION  
DISTRICT 8, COLLINSVILLE**

**Overview**

Highway District 8 encompasses 10 counties in southwestern Illinois and includes the cities of East St. Louis, Alton, Belleville, Edwardsville, Jerseyville, Highland, Greenville, Mascoutah and Chester, plus many smaller communities which serve as satellites for the larger employment centers. The state highway system in District 8 consists of 1,655 miles of highways and 867 bridges, supporting 14.6 million vehicle miles of travel daily.

**State Program**

The program for state and local highways will average \$1.483 billion annually for the FY 2004-2008 period. Approximately \$745 million will be provided during FY 2004-2008 for improvements to state highways in District 8. The following table summarizes anticipated accomplishments on the state highway system in District 8 during this time frame.

**FY 2004-2008 Accomplishments**

Interstate Rehabilitation (miles)	16
Interstate Bridges (number)	21
Other Bridge Rehab/Replace (number)	29
Resurfacing/Widening (miles)	84
Major Highway Construction (miles)	38
Traffic/Safety Improvements (locations)	38

Major projects of interest that are tentatively scheduled during the FY 2004-2008 time frame include:

- **Interstate 64/55/70 Interchange (Tri-Level) in East St. Louis.** Reconstruction of the interchange at the three interstate routes is necessary to improve traffic operational conditions and provide access to the local street system. Construction and associated work are programmed during FY 2004-2008 at a cost of \$82.9 million. Of this total, pre-construction work is programmed in FY 2004 at a cost of \$4.1 million.

In conjunction with the tri-level interchange, a 0.9 mile connector road from the Tri-Level to relocated Illinois 3 is programmed during FY 2004-2008 at a cost of \$41 million. Of this total, completion of engineering for contract plans is programmed in FY 2004 at a cost of \$2.3 million.

- **Interstate 64 from Illinois 157 to Lincoln Trail at O'Fallon in St. Clair County.** Completion of engineering for contract plans and construction of the additional lanes to continue the six-lane section 6.4 miles to O'Fallon are programmed in FY 2004 at a cost of \$37.4 million.

- **Interstate 270 from County Ditch Bridge west of Illinois 157 to Interstate 55/70/270.** Four-lane reconstruction of 3.4 miles from County Ditch Bridge west of Illinois 157 to west of Illinois 159 and four-lane resurfacing on 3 miles from west of Illinois 159 to Interstate 55/70/270, including construction engineering, are programmed during FY 2004-2008 at a cost of \$32.1 million. Of this total, the four-lane resurfacing portion is programmed in FY 2004 at a cost of \$3.7 million. The reconstruction is a pilot project for evaluating a 40-year highway design.
- **US 67 from Godfrey to Jerseyville in Madison and Jersey Counties.** Construction of 11.2 miles of new four-lane pavement is programmed during FY 2004-2008 at a cost of \$77.9 million. Of this total, continuation of engineering for contract plans, bridge construction and construction engineering are programmed in FY 2004 at a cost of \$1.8 million. TEA-21 provided \$11.9 million in High Priority Project funds for the first segment.
- **Illinois 3 relocation from Cahokia to Venice.** Engineering for the relocation along the East St. Louis riverfront is in progress. Completion of engineering, the remaining land acquisition, Cahokia Canal relocation and construction of 3.8 miles from the north connection in Venice to River Park Drive in East St. Louis are programmed during FY 2004-2008 at a cost of \$88.6 million. Of this total, completion of engineering, land acquisition and demolition are programmed in FY 2004 at a cost of \$4.5 million.
- **Illinois 15 from Green Mount Road southeast of Belleville to Freeburg.** Construction of additional lanes for 4.9 miles and associated work are programmed during FY 2004-2008 at a cost of \$13.5 million. Of this total, completion of engineering is programmed in FY 2004 at a cost of \$400,000.
- **Illinois 159 from Edwardsville to Interstate 64 in Fairview Heights.** Development of a multi-lane highway for 8.1 miles in this corridor is under way. The construction for the 3-mile segment from Collinsville to Interstate 64 is under way and two other contracts for 2.3 miles from South of Harvard Drive to Interstate 270 and 1.1 miles from Interstate 270 to Illinois 162 are anticipated to be let summer 2003. Construction for the remaining 1.7 miles is programmed in FY 2004 at a cost of \$5.6 million to complete the route. TEA-21 provided \$3.2 million in High Priority Project funds for the segment from Edwardsville to Interstate 270.
- **Illinois 162 from west of Formosa Road to US 40 in Troy.** Completion of engineering, construction of additional lanes and resurfacing on 4.4 miles are programmed during FY 2004-2008 at a cost of \$6.8 million. Of this total, engineering is programmed in FY 2004 at a cost of \$1.5 million.

- **Alton Bypass from Illinois 143 to US 67 in Godfrey.** Construction of the four-lane Alton Bypass from Interstate 270 to US 67 in Godfrey is in progress. The segment from Interstate 270 to Illinois 143 is open to traffic. Construction on various bridges and side streets from Illinois 143 to Fosterburg Road is under way. Additional contracts for the 7.2-mile segment from Illinois 143 to Fosterburg Road are anticipated to be let summer 2003 for mainline and side street construction. Completion of the remaining 6.1 miles of mainline pavement from Fosterburg Road to US 67 in Godfrey and 2.5 miles of construction on cross streets are programmed during FY 2004-2008 at a cost of \$69 million. Of this total, \$6.8 million is programmed in FY 2004 for construction on a cross street, bridges, completion of land acquisition and miscellaneous work. TEA-21 provided \$5 million in High Priority Project funds for a portion of the land acquisition.
- **East St. Louis, Illinois and St. Louis, Missouri: New Mississippi River Bridge (NMRB).** Engineering for location, design and environmental studies for a new bridge connecting East St. Louis and the central business district in St. Louis, Missouri is complete. This engineering was initiated in FY 1992 with Illinois as the lead agency and Missouri sharing in the costs.

Land acquisition and engineering for contract plans are under way; continuation of engineering is programmed in FY 2004 at a cost of \$12.8 million. Missouri and Illinois are sharing the engineering costs for contract plans. ISTEPA included \$2.3 million in federal demonstration funds for this project. TEA-21 has provided \$1.1 million in High Priority Project funds for this project. The construction of this project is currently unfunded and will require special federal funding over and above regular program funds.

The location of the new Mississippi River bridge is being coordinated with the relocation of Illinois 3 from Venice to Sauget/Cahokia and the Interstates 55/64/70 Tri-Level reconstruction in East St. Louis.

- **McKinley Bridge over the Mississippi River at Venice.** Rehabilitation of the bridge and demolition of the Venice Highline railroad trestle are programmed in FY 2004-2008 at a cost of \$39.7 million. Of this total, rehabilitation of the bridge is programmed in FY 2004 at a cost of \$37.2 million. TEA-21 has provided \$4 million in High Priority Project funds for this project.

This project is contingent upon special state legislation transferring jurisdiction of the bridge to the state of Illinois, local funding participation and the retirement of outstanding bonds.
